Forged 4340 steel VW cranks with Chevy 2.000" (50.8mm) Journals Description

Hurricane factory manufactured in a wide variety of strokes with either VW or Chevy journals to fit your exact engine configuration. we will only uses the strongest high quality forgings for our product. This is a Brand New Forged 4340 Chromoly Crankshaft with Chevy 2.000" (50.8mm) rod Journals for the VW Type 1 Air Cooled Engine. It is CNC machined from One Piece of forged Chromoly steel. These VW air-cooled Counterweight Crankshafts are Nitrided for strength and micro polished. Also the VW 82mm stroke 4340 crankshafts are ground to exacting tolerances, magnafluxed and balanced. The 2" Chevy rod journal is smaller than the VW so you will have less clearance issues making it easier to install. These cranks are the perfect match for your next engine build.

For other stroke size, like **76mm, 78mm, 84mm or 86mm**, please [contact hurricane sales team](#).
