## Conrods for Ford Duratec Mazda MZR 2.0L Description

Ford Focus Duratec 2.0L Mazda B2000 MZR Conrods are Specifically engineered for demanding race applications. Bronze bushings are inserted for floating piston pin and Dowel sleeves for perfect fit and accurate re-assembling. I beam conrods for Ford Duratec Mazda MZR 2.0L have a large flat area that is

perpendicular (90 degrees) to the side beams. The side beams of the rd are parallel to the holes in the ends for the piston pin and crank journal, and provide a good combination of light weight, and tensile and compressive strength.

**Note: Other 4340 I beam conrods, CNC tool vestige is very clear.**

**Note: Hurricane connecting rods are hard to see the CNC tool vestige with beautiful appearance.**

Computer controlled numeric(CNC) machining allows us to offer a wider variety of rods in terms of rod length and beam construction. Except I beam, Hurricane also offer H beam design for Mazda 6 Connecting Rods, For more information, Please check our product page at: [4340 Steel Mazda MZR 2.0L h beam connecting rods,146mm rod length](#)
